**Christie Lake Property Owners,**

PLM Lake & Land Management will offer herbicide and algaecide treatments for Christie Lake property owners for the 2022 season. Please note that this program is for Eurasian watermilfoil and algae. If you would like to participate, please fill out the below sign up form along with payment. The treatment program will consist of 2 weed and algae treatment during the 2022 season. The cost will be \$3.75 per running foot of shoreline (minimum of \$100.00) treating ~100 feet out from shore. Tentative treatment dates and notification of products that may be applied will be mailed in the spring of 2022.

The products applied are based on the type and amount of nuisance vegetation present at the time of treatment. The program does not treat for any emergent (cattails, bulrush) or native plants such as sago pondweed and eel grass unless mentioned above. The swimming restriction is a maximum of 1 day. Watering lawns or gardens and fishing restrictions will be based on products applied at time of treatment.

We are responsible for obtaining the permit, liability insurance, workman's comp. and the posting of restriction signs every 100 feet from and within the treatment areas. **It is your responsibility to notify each property owner/neighbor who is within 100 feet of your treatment area. The notification must include copies of the "2022 Tentative Treatment Dates" and the "NOTICE" of products that may be applied, and must be delivered at least seven days before we treat but not more than 45 days.** (This information will be sent to you in the Spring of 2022). This notification procedure is a must if you want to receive our service!!! Remove the restriction signs at conclusion of longest restriction period.

We encourage getting neighbors involved. Treating consecutive properties will increase the effectiveness of treatments. If treatment results are not to your satisfaction you must call our office within 20 days following treatment. All complaints following 20 days are subject to a treatment fee. If there are any interested individual(s) and/or Association(s) that would like to take your individual treatment program to the next level of a lake wide management program, please contract our office and one of our lake managers will assist you!

For property owners who would like treatments in 2022, please read the below consent form, sign and return it with payment to our office by February 15, 2022.

Follow the directions below and submit with check or credit card. For further information, please contact our office @ 1-800-382-4434.

*Please Detach Below*

**INDIVIDUAL MULTIPLE YEAR PERMISSION FORM**

I hereby give permission to PLM Lake & Land Management Corp. to treat my lake frontage for Eurasian watermilfoil and algae growth. I will be responsible for notifying each property owner within 100 feet of my treatment area at least seven days before but not more than forty-five days prior to treatment, that products will be applied to my property. In addition, I will remove any restriction signs at the conclusion of the longest stated restriction date. I may relinquish this approval in writing prior to making payment for treatment by April 1<sup>st</sup> of each season.
